

1. New Features Required

20 new features identified across 3 phases | Total Effort: 78 - 109 person-days

Phase 1 - Map MVP & Listing Enhancements

#	Feature	PRD	Phase	Effort
1	Full-screen interactive map with listing pins	6.1	Phase 1	8 - 10 days
2	Custom map pins - pulse animation, colour-coded	6.1	Phase 1	3 - 5 days
3	Long-press on map to create listing (coords)	6.1	Phase 1	2 - 3 days
4	Polygon draw - multi-tap closed area selection	6.1	Phase 1	3 - 4 days
5	Map clustering - group nearby pins zoomed out	6.1	Phase 1	3 - 4 days
6	Urgency level field (low/medium/high/critical)	6.2	Phase 1	2 - 3 days
7	Listing expiry time setting	6.2	Phase 1	2 - 3 days
8	Map-based location picker (replace zipcode)	6.2	Phase 1	2 - 3 days
9	Dark-mode-first UI with PRD brand palette	8.1	Phase 1	5 - 8 days

Phase 1 Subtotal: 30 - 43 person-days

Phase 2 - Backend Enhancements

#	Feature	PRD	Phase	Effort
10	Onboarding bonus points (+500 on first sign-up)	10.1	Phase 2	1 - 2 days
11	Block user functionality	Ph. 2	Phase 2	3 - 4 days
12	WebSocket real-time listing sync	Ph. 2	Phase 2	8 - 10 days
13	Notification & privacy settings screen	6.5	Phase 2	2 - 3 days
14	User stats on profile (gigs, member since)	6.5	Phase 2	1 - 2 days

Phase 2 Subtotal: 15 - 21 person-days

Phase 3 - Growth & Monetisation

#	Feature	PRD	Phase	Effort
15	Referral rewards system (referrer/referee)	10.1	Phase 3	5 - 8 days
16	Points leaderboard - top 50 users	6.4	Phase 3	3 - 4 days
17	In-App Purchase - points top-up bundles	6.4	Phase 3	8 - 10 days
18	Stripe Connect cash-out with KYC	Ph. 3	Phase 3	10 - 15 days
19	Dispute resolution workflow	Ph. 3	Phase 3	8 - 10 days
20	Boosted listings - paid placement on map	Ph. 3	Phase 3	5 - 7 days

Phase 3 Subtotal: 39 - 54 person-days

2. New Libraries & Packages Required

#	Package	Purpose	Phase
1	google_maps_flutter	Interactive map rendering with markers and overlays	Phase 1
2	geolocator	GPS location services (WhenInUse permission)	Phase 1
3	geocoding	Reverse geocoding - coordinates to address	Phase 1
4	flutter_polyline_points	Polygon drawing support on map	Phase 1
5	web_socket_channel	WebSocket connection for real-time listing sync	Phase 2
6	in_app_purchase	StoreKit 2 (iOS) & Google Play Billing (Android)	Phase 3
7	flutter_stripe	Stripe Connect integration for cash-out payouts	Phase 3
8	share_plus	Deep-link sharing for referral programme	Phase 3
9	app_links	Deep link handling for referral tracking	Phase 3
10	mixpanel_flutter	Product analytics & user behaviour tracking	Phase 3

3. Google APIs & External Services Required

Google Cloud APIs (Billing Required)

#	API	Purpose	Pricing
1	Maps SDK for iOS	Map rendering on iOS devices	Free: 28k loads/mo
2	Maps SDK for Android	Map rendering on Android devices	Free: 28k loads/mo
3	Places API	Location search & autocomplete	\$17 / 1,000 req
4	Geocoding API	Address <> coordinate conversion	\$5 / 1,000 req

Third-Party Services

#	Service	Purpose	Phase
1	Apple StoreKit 2	In-App Purchase for iOS points bundles	Phase 3
2	Google Play Billing	In-App Purchase for Android points bundles	Phase 3
3	Stripe Connect	Cash-out payouts to users with KYC	Phase 3
4	Mixpanel / PostHog	Product analytics & user behaviour tracking	Phase 3

4. Effort Summary

Phase	Scope	Effort (Days)
Phase 1	Map MVP, listing enhancements, dark-mode UI	30 - 43
Phase 2	Real-time sync, block user, profile stats, settings	15 - 21
Phase 3	IAP, Stripe, disputes, referrals, boosted listings	39 - 54
Grand Total		84 - 118 days
